## Full Stack Software Engineer

Passionate Full Stack Software Engineer with experience in remote operations and a solid foundation in MERN stack development. Adept at building and maintaining applications, improving operational efficiency, and solving complex problems. Looking to leverage my skills in a dynamic entry-level software engineering role.

## WORK EXPERIENCE

---

### Student

Arizona State University • Remote • 02/2024 - Present

### Graduate Student

Touro University California • Vallejo, California, United States • Remote • 08/2021 - Present

### Remote Operations Technician

Intel Corporation • Chandler, Arizona, United States • Hybrid • 02/2018 - 08/2020

- Provided remote troubleshooting and technical support, improving system uptime and user satisfaction. - Developed scripts and tools to automate routine tasks, enhancing operational efficiency. - Collaborated with engineering teams to diagnose and resolve complex system issues.

## EDUCATION

---

### Certificate in Full Stack Software Engineering

Arizona State University • 02/2024 - 08/2024

### Bachelor of Science - BS in Biology, General

University of Arizona • 08/2013 - 05/2017

## PROJECTS

---

### Food Delivery Application • 07/2024 - 08/2024

- Developed a full-stack web application using MERN stack (MongoDB, Express.js, React, Node.js). - Implemented user authentication, Stripe API integration for payments, and order tracking functionalities.

### Interactive-RPG • 08/2024 - 08/2024

- Created an interactive RPG game using the MERN stack as part of a group project. - Enabled users to make choices that affect game outcomes, demonstrating interactive programming skills.

### Google Book Search Engine • 07/2024 - 07/2024

- Built a MERN application to search and save books, converting a RESTful API into a fully functional web app. - Utilized MongoDB for database management and React for the front-end interface.

## SKILLS

---

- |                            |              |           |
|----------------------------|--------------|-----------|
| • Back-End Web Development | • GraphQL    | • MySQL   |
| • Data Analysis            | • HTML       | • Node.js |
| • Express.js               | • JavaScript | • R       |
| • Git                      | • MERN       |           |
